

Table A-1. U.S. EPA Pesticide Re-Registration Schedule

Pesticides of Urban Surface Water Quality Interest

Pesticide	Preliminary Risk Assessment	Revised Risk Assessment	Registration Eligibility Decision*	Notes
Atrazine				EPA attempted to integrate water & pesticide regulatory actions
Carbaryl				
<i>Copper</i>				
Copper compounds		Plan to skip	?	Includes most copper-containing pesticides; must be completed by 8/06 but not on public participation schedule
Other copper compounds	Late 2006 or early 2007			Copper pesticides without food uses were excluded from first process
Dicamba		Plan to skip	Planned for 5/06	
p-Dichlorobenzene			Planned for 3/08	Possibly important for POTWs
Lindane				Additional review of human health risks is underway
<i>Organophosphates</i>				
Diazinon				
Chlorpyrifos				
Malathion			?	Must be completed by 8/06 but not on public participation schedule
MGK-264		Plan to skip	Planned for 6/06	Synergist for pyrethrins & pyrethroids
Metam Sodium		Planned for 8/06	Planned for 12/05	Plan to release re-revised risk assessment; not clear if environmental risks will be updated
<i>Phenoxy herbicides</i>				
2,4-D				
2,4-DB		Skipped		
2,4-DP			Planned by 9/07	
MCPA		Skipped		
MCPP			Planned by 9/07	
Piperonyl Butoxide			Planned for 6/06	Synergist for pyrethrins & pyrethroids
Pyrethrins			Planned by 6/06	
<i>Pyrethroids**</i>				
Allethrin			Planned by 3/07	
Cypermethrin		Plan to skip	Planned for 6/06	
Permethrin		Plan to skip	Planned for 6/06	
Resmethrin		Plan to skip	Planned for 6/06	
Sumithrin			Planned for 9/08	
Tetramethrin			Planned for 9/08	
Tributyltin			Planned for 9/07	
Triclosan			Planned for 9/07	EPA is calling it Irgasan
<i>Wood Preservatives</i>				
As/Cr Compounds			?	Arsenic and chromium-containing wood preservatives like CCA; No longer on reregistration schedule
Creosote			?	No longer on reregistration schedule
Pentachlorophenol	Scheduled 11/05		?	Plan to re-release preliminary risk assessment; not on current public participation schedule; reregistration schedule planned RED in 9/05
Zinc Pyrithione		Plan to skip	Planned by 9/04	Marine antifouling paint use of interest; no dates on EPA re-reg schedule
<i>Antimicrobials</i>				
PHMB		Plan to skip	Planned by 9/04	No dates on EPA re-reg. schedule
Pine Oil		Plan to skip	Planned by 9/04	No dates on EPA re-reg. schedule
Phenol		Plan to skip	Planned by 9/04	No dates on EPA re-reg. schedule
Halohydrantoin		Plan to skip	Planned by 9/04	No dates on EPA re-reg. schedule

Other Priority items:

U.S. EPA Pesticide re-registration rulemaking to define procedures for future 15-year reviews (draft regulations issued 7/05)

Comparative Assessment for synthetic pyrethroids (was expected 4/04)

Of potential urban interest: ADBAC, aliphatic alkyl quaternaries, alkylbenzene sulfonates, 2-phenyl phenol and salts (biocides, PRAs planned for 4/06); chlorine dioxide (PRA planned for 4/06); glutaraldehyde (PRA planned for 6/06)

Items in italics are past scheduled release date but have not been released.

*Plan to skip" means that U.S. EPA plans to omit this public input step and move straight to the RED or IRED.

*For those that are part of a cumulative group, this is an Interim Registration Eligibility Decision that will be finalized later

**Scheduled for tolerance review only (no environmental risk assessment): bifenthrin, cyfluthrin, esfenvalerate, imidacloprid, lambda-cyhalothrin, tralomethrin
